Notes:

Monday 5th March daytime outing:

From 9.00am - BYO everything

Meet at Lighthouse Beach (Matthew Flinders Drive; corner of Watonga St) south of the surf club.

Walk around the 'Dunecare' project at the foreshore followed by an easy, short walk (approx. 2km) through the Landcare 'Blair Street Reserve' project. After morning tea we'll drive over to the NPWS Blackbutt Road depot to view the Landcare community nursery (plants will be for sale).

The day will conclude with a picnic lunch at Cowarra Dam.

Tues & Wed 25 & 26 Sept. ASGAP bus tour:

The bus with 30-40 people will be around our area during these two days.

Volunteers will be required to act as guides and aids at the separate locations that will be visited.

Members may also wish to accompany the tour group for walks at the Christmas Bell Plains, at Kattang Nature Reserve or Kooloongung Creek Nature Park or during the visit to Annette Houseman's garden.

BYO lunch and morning and afternoon tea. (If the bus tour is fully booked we will also need to provide our own transport.)

NB: A special thank you to:

Helen Ridden who has organised seven guest speakers for this year, and

Janet Watson for arranging the outings and collating the information for the outings and the meetings.
